

It's time to switch to Brushless DC Motor

FENGTECH
AC&DC Geared Motor Expert

www.fengtech.com

■ BL3630

Standard

Built-in Driver

Features

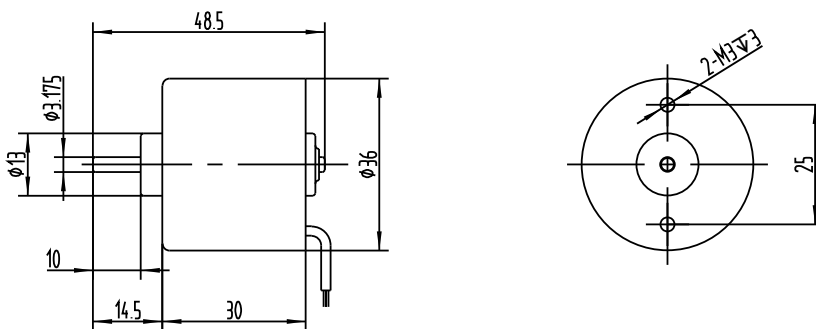

Forward/Reverse Rotation Switchable
Locked rotor protection, Stepless speed regulation
Reverse wiring protection, Over/Under voltage protections
Low noise, Low EMI, Long life 10000-30000hrs

Application

Home Application: White Goods, Small Appliance, Coffee Machine
Power Tools: Screwdriver, Drill, Air Compressor
Business Equipment: Printer, Copier, Projector, ATM, Vending Machine
Personal Care: Hair Dryer, Electric Shaver, Massager

■ Outline Drawing

Wire Color	Driver Function
Red DC "+"	Forward/Reverse Rotation
Black DC "-"	Speed Control
White CW/CCW	Over/Under Volt Protection
Yellow Speed regulation	Reverse Wiring Protection
	Over Current Protection
	Rotor Speed signal output

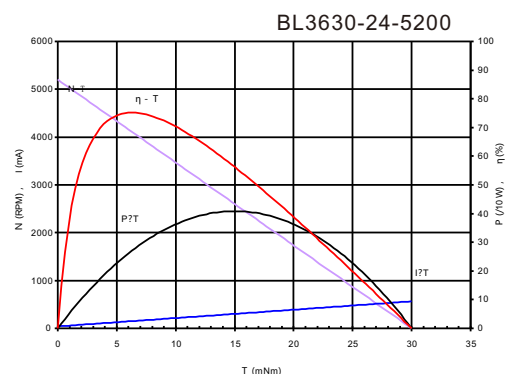

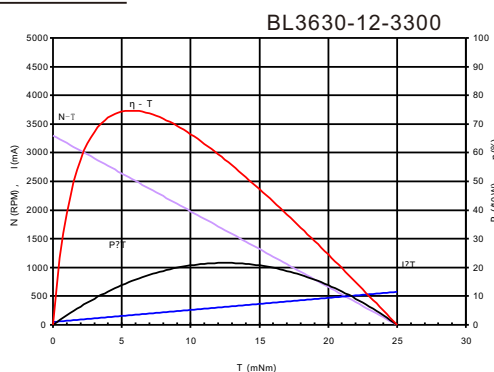

Motor Parameter	
Winding Type	3 Phase, Star, 9 Poles
Hall Sensor	Sensorless/120 degree
Insulation class	Class E
Dielectric strength	500VDC for one minute
Insulation resistance	100M ohm, 500VDC

■ Specification

Model	Voltage		No Load		Rated Load				Stall	
	Range (V)	Rated (V)	Speed (RPM)	Current (A)	Torque (mN. M)	Speed (RPM)	Current (A)	Power (W)	Torque (mN. M)	Current (A)
BL3630-12-4600	8-15	12	4600	0.08	6	3800	0.25	2.4	31	1.2
BL3630-12-3300	8-15	12	3300	0.05	5	2640	0.15	1.5	25	0.7
BL3630-24-5200	18-26	24	5200	0.04	6	4160	0.13	2.5	30	0.5

Notice: Data above are for special customer. Voltage, rated torque, speed, current, power and shaft dimension can be changed as the customer's requirement.

■ Performance Curve
